User Interface (UI) User Experience (UX)
Testing and debugging
Learning and openness to new
technologies

About Me

I'm a passionate developer with a background in front-end development and API services. I enjoy collaborating with designers and working with all aspects of the stack to create a product that is both functional and beautiful.

Professional Experience

personal blog
2022 – Present

A personal blog to post my humble experience in web development. I'm sharing what I've learned, code snippets, tutorials and other resources.
Features
- NextJS API routes
- Client Side Rendering (CSR)
- headless cms content editing
